RECOMMENDATIONS FOR HTML5 MATERIAL

HTML5 creatives must be <u>SSL compatible</u> to serve to HTTPS sites.

Make sure your creative uses the click tag variable as the click destination.

The click tag should be easy for the ad server to read — no minification or obfuscation, though you can use minifiers in the rest of your code and other files.

We don't recommend hard-coded clickthrough URLs in your asset

BELOW THE CLICKTAG CODE TO INSERT IN THE HTML FILE

A click tag should be inserted in the <head> of an HTML document. See this example:

```
<html>
<head> <meta name="ad.size"
content="width=300,height=250"> <script
type="text/javascript"> var clickTag =
"http://www.google.com"; </script> </head> [The rest of your creative code goes here.]
</html>
```

In the body of your HTML document, your creative must use the click tag variable as the click-through URL:

HTML5 ELEMENT MADE WITH GOOGLE WEB DESIGNER

If you use Google Web Designer to build HTML5 creatives, you must add an exit. An exit is any clickable area that directs the browser to a landing page.

1.

Ensure you select the «DoubleClick» environment. 2

Add a button or other clear visual incentive to action that the user can click or press.

3.

Drag the Clickable Area component from the component panel to the creation space, then place it above the action prompting.

4

On the « Events » panel, click the « New Event » button.

5.

On the dialog box that appears, select the following options:

Target: Component clickable area (gwd-taparea_1)

Event: Clickable area > Press/Click
Target: Google Ad > Exit

Recipient: gwd-ad

Configuration:

- Statistics ID: any Label
- Output URL

OUR RECOMMENDATIONS

FOR FORMATS WITH VIDEOS AND/OR SOUND

Sound must be off by default.

Video can loop.

WE DON'T HOST VIDEO

6. EMAILING

All material must be delivered at least 5 business days before the campaign starts in the form of a zip file or via Wetransfer

Les Echos Le Parisien MÉDIAS

HTML & TECHNIQUE

Always put a background color in HTML

Use only the 5 system fonts for the dynamic text (arial/verdana/times/...)

Proscribe flash technologies, javascriptBan the «CSS» which pass very badly in messaging services

For weight reasons it is desirable to have several small images rather than a single one

You should not put a «backgroundimage» because many browsers misinterpret the «background» code

The HTML title of the page must be correctly filled in

DOCTYPES must be in HTML4

The Meta tag must be filled in

No tag <linkrel> or <styletype=»text/css»> or <script> above the </head> of the page

No tags

No tags <DIV>

All characters must be HTML encoded

Use the tag to format text, color, size, and font

Check all apostrophes: use: 'and not' (Word OFFICE character)

All dimensions must be in pixels and not in %.

Never Height for the TABLE

No XML tag closing like
 always

Any tracking elements (pixels,clic-command) are to be implemented by you and directly in the delivered file The words «mirror page» and «unsubscribe» are automatically added.

OUR RECOMMENDATIONS

HTML File size: **30 Ko maximum**

Total file size with images: 150 Ko maximum

ELEMENTS TO PROVIDE

An HTML file already built with the content of the emailing
Subject of the emailing
The sender's name
An email adress to allow internet users to reply

GRAPHISM AND STRUCTURE

Prioritize the message

Place the logo on the top left corner

Reassemble the main message elements in the preview window (an approximately 200 pixels high)

(approximately 300 pixels high)

Visible and explicit buttons and links

Underline links only

Have graphic consistency with other channels / website / and emails between them

Define landing pages in a relevant way (always have consistency between the link and the page to which it leads)

Write short texts and rather in column

Give structure to emails, clearly identifiable areas

Use animations to highlight certain elements

Max weight for the element 100 Ko

L'ESSENTIEL

Incendie mortel à Paris : «Quand j'ai ouvert la porte du salon, j'ai vu les flammes»

Rescapés de l'incendie du 17, rue Erlanger qui a fait dix morts dans la nuit de lundi à mardi, Clément et Nathalie racontent cette nuit d'effroi.

Au cœur du commissariat du Ve arrondissement, le musée de la préfecture de police fête ses 110 ans d'existence. Visite guidée de cet établissement méconnu.

624X176

Incendie mortel à Paris : l'immeuble ! cause d'un risque d'effondrement

8. SMS

All material must be delivered at least 5 business days before the campaign starts in the form of a zip file or via Wetransfer

Always insert « STOP 00000 » at the end of the message for French and Belgian campaigns.

Sending campaigns between 8 am and 8 pm on working days and Saturdays. (No campaigns on Sundays!)

The SMS must contain a maximum of 147 characters since the STOP text occupies 11 characters.

ATTENTION

Some characters are « special » for instance « € » which counts for 2 characters, a « ç » counts for 46 characters jut like the « ë ».

List of standard characters counting for 1 character:

@£\$¥èéùìòÇØøÅåΔ_ΦΓΛΩΠΨΣΘΞ^{}[~]|ÆæßÉ!"#¤%&'()*+,./01 23456789:;<=>?¡ABCDEFGHIJKLMNOPQRSTUVWXYZÄÖÑܧ¿ abcdefghijklmnopqrstuvwxyzäöñüà
